Servicing the Research Triangle!

BENEFITS

Early Leak Detection

- Catches leaks before they become major water damage issues – saving you from expensive repairs.

Instant Alerts

- Sends real-time notifications to your phone through the Drop app, so you can act fast no matter where you are.

Protects Your Home 24/7

- Monitors continuously for leaks, freezing temperatures, or humidity changes that can cause damage.

Wireless & Easy Setup

- Battery-powered and Wi-Fi enabled – no complicated installation or wiring needed.

Environmental Awareness

- Tracks temperature and humidity to help prevent mold or frozen pipes.

Integrates with Drop Systems

- Works seamlessly with your Drop water management system to automatically shut off water if a leak is detected.
